

REMARKS

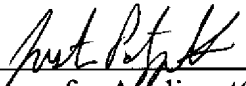

Applicants would like to thank the examiner for the telephone interview granted to applicants' local representative, Marc A. Rossi, on May 9, 2008. During the interview, the examiner tentatively agreed amending the claims to clarify that the information extracted and analyzed to determine the claimed categories was image information content of an image, as opposed to time and date information as disclosed in Ko, would be sufficient to overcome the present rejection of the claims based on anticipation.

Applicants have proceeded with amending the claims in accordance with the tentative agreement reached with the examiner. In addition, applicants have added new claims 7-19 to further claim the features of the disclosed invention. Claims 1-3 and 4-19 remain pending in the application.

The examiner indicated the amendment would require further search and consideration. The amendment would therefore not be considered after the final rejection of the claims. Accordingly, applicants have proceeded with the filing of a Request for Continued Examination along with this amendment.

It is believed that the foregoing is a complete response to the Office Action and that the claims are in condition for allowance. Favorable reconsideration and early passage to issue is therefore earnestly solicited.

Respectfully submitted,
